Code Integration

1. OpenGraph/Social Sharing Images

Files Updated:

- `/public/og-image.png` → Updated with new branded OG image
- `/app/opengraph-image.png` → Next.js 14 OpenGraph standard
- `/app/twitter-image.png` → Twitter card image

Impact: When sharing `catchbarrels.app` on social media, the new Momentum Transfer branded image appears.

Implementation:

```
// app/layout.tsx already configured
export const metadata = {
  metadataBase: new URL('https://catchbarrels.app'),
  openGraph: {
    images: '/opengraph-image.png', // Auto-detected by Next.js
  },
  twitter: {
    images: '/twitter-image.png', // Auto-detected by Next.js
  },
}
```

2. PWA Splash Screen (Future Enhancement)

Available Asset: `/public/assets/social/14_pwa_onboarding_splash.png`

Usage: Can be integrated into PWA manifest for app launch screen or used in onboarding flow:

```
// app/onboarding/page.tsx
import Image from 'next/image';

export default function OnboardingPage() {
  return (
    <div className="flex flex-col items-center justify-center min-h-screen bg-black">
      <Image
        src="/assets/social/14_pwa_onboarding_splash.png"
        alt="Welcome to CatchBarrels"
        width={1920}
        height={1080}
        priority
      />
    </div>
  );
}
```

Content Templates Usage

Drill Cards

Template: `templates/cards/08_drill_card_template.png`

How to Use:

1. Open in image editor (Photoshop, Canva, Figma)
2. Replace "DRILL NAME" with actual drill name
3. Fill in three teaching points
4. Add drill demonstration photo in center
5. Insert QR code to drill video/page
6. Export and share

Example Drill:

DRILL NAME: Load & Launch Separation

Position feet shoulder-width apart

Load back hip **while** keeping front shoulder closed

Launch sequence: Hips Torso Hands

[QR Code to: catchbarrels.app/drills/load-launch]

Player Highlight Cards
